DRAFT-DELIBERATIVE

All,

I understand that the goal of today's meeting (4-6 pm Eastern, Potomac 7301 EPA West) is to discuss options for the Pend Oreille TMDL with R10 and WA Dept. of Ecology and share our technical work that went into the analysis of the draft TMDL.

I understand R10 will be setting the stage on the call, and relying on HQ help answer WA's questions as needed.

Note that the draft issue paper and Appendix I shared with you ~May 21 were not forwarded to the State of WA. Attached I've re-shared the draft materials I shared with you ~May 21 that have not been forwarded to the State of WA.

These may help us with messaging on the call. With the new Outlook and all of the meeting updates I've sent via Outlook, I wanted to be sure you have these at your fingertips.

The materials R10 provided to WA for this meeting are attached within the current Outlook invitation (not attached here).
